RE: Appreciation and Recommendation
Mills Brothers Masonry
Kerr County Jail Additions and Renovations

Dear Dan,

I am very pleased to express our appreciation and offer our recommendation to Mills Brothers Masonry. Your team's support and professional approach on the construction services for the masonry work on our recently completed Kerr County Jail project was invaluable to us as well as the overall project.

Mills Brothers' performance on the Kerr County Jail Additions and Renovations project in Kerrville, Texas was a significant factor in the overall success of the project. Your timely submittals and material deliveries allowed the construction schedule to proceed as planned, without delays. Your project management and on site construction personnel were knowledgeable and professional, and they worked hard to coordinate your work with others while always focusing on advancing the schedule. Justin was helpful with coordinating all aspects of the project, particularly by providing the additional manpower and working hours needed to expedite the overall schedule, and along with the timely pricing and implementation of the various changes, added to the success of the overall team concept in delivering a quality project to the Owner.

We are happy to recommend Mills Brothers Masonry to any Owner or Architect/Engineer for any related project.

Thanks again for partnering with us on the successful completion of this project.

Sincerely,

Scott L. Rain
Sr. Project Manager
Huser Construction Company, Inc.
