RE: Mills Brothers Masonry

I have had the privilege of working with Mills Brothers Masonry on The Pinnacle at Encino Commons. They have been a great help with the challenge of this Design/Build project from start to finish. Dan Mills offered many ideas to Metropolitan for value engineering and really pleased our clients with multiple mock-ups for them to choose from. Additionally, they manned the project everyday and completed a challenging project with ease.

I would not hesitate in recommending Mills Brothers Masonry.

Sincerely,  
METROPOLITAN CONTRACTING COMPANY, LTD.

Rusty Hastings  
Project Manager
