To Whom It May Concern -

JM Lowe & Company recently completed our largest project to date and Mills Brothers Masonry was a key part of our project team's success. Mills Brothers staffed the job sufficiently, carried out the work in a professional manner, and was truly a team player throughout the project.

Early in the project, an issue outside Mills Bothers' control threatened to significantly delay the schedule, but Dan Mills offered a solution that allowed us to provide a better finished product at a reduced cost to the owner. We were able to stay on schedule and deliver the project on time. Also, although the jobsite was over an hour away from their base of operations, the masons were the first crew on the jobsite every morning, mixing mortar and getting prepared to start the day before other crews had even arrived.

I hope we have the opportunity to work with Mills Brothers Masonry again in the near future and I would recommend them highly to any other contractors or owners.

Respectfully,

Carson Conklin
JM Lowe & Company
